Community Helpers- Doctor
Discuss what a community helper is and the various jobs that are around our community. Discuss the importance of a community helper and how much we appreciate their hard work. Today the focus will be on doctors. Discuss with the children about doctors and ask them if they have ever been to a doctors office. Discuss what they see in a doctors office and ask the children to talk about their experiences with doctors. Talk about the doctors instruments and equipment that they use to assess us. Show the children a stethoscope and explain the function of it. Have the children make a stethoscope out of a paper cup with the bottom cut out. Children press the big end of the cup to the heart area of a friend's chest, and press an ear against the small end. (Works best if you don't hold onto the cup.)
